

## Single Phase Direct Connection Protection Relay 63 A (VPR-63D)

### FEATURES

- Over/Under Voltage
- Over Current (Under Optional)
- Trip Delay Time 3 – 300sec
- Waiting Time 1 – 180min

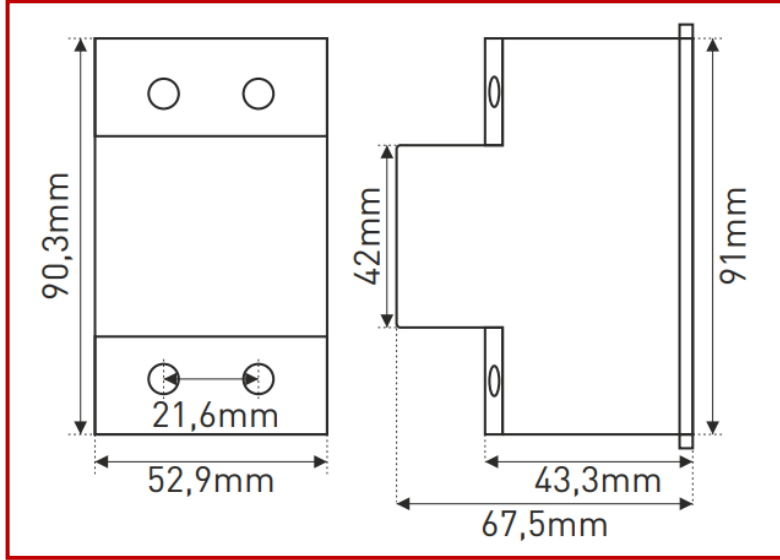

### TECHNICAL DATA

|                                    |                                                                             |
|------------------------------------|-----------------------------------------------------------------------------|
| Standards                          | IEC 600441-1, IEC 61869-2, VDE 0414-1, DIN57414, BS3938, BS7626, EN61869-2. |
| Power Consumption                  | 3.5 W                                                                       |
| Operating Frequency                | 50 Hz / 60 Hz                                                               |
| Ambient temperature (operation)    | -40 C ~ +85 C                                                               |
| Number of input                    | 1                                                                           |
| Rated Power                        | Up to 5VA                                                                   |
| Over Voltage                       | 220-300 V AC (Adjustable)                                                   |
| Under Voltage                      | 140-220 V AC (Adjustable)                                                   |
| Max system voltage                 | 0.72kV                                                                      |
| Trip Delay Time                    | 3-300 Sec (Adjustable)                                                      |
| Recovering Time After Over Current | 1-180 Min (Adjustable)                                                      |
| Weight                             | 225 gr                                                                      |
| Protection Class                   | IP20                                                                        |
| Mounting                           | DIN Rail                                                                    |
